

SPEED FEED™ wood drill bits

Step up from flat bit in quality and performance - faster drilling, higher lifetime and less jamming!
Dual cutting edges for fast and aggressive cut - up to 10 times faster drilling vs. flat boring bit.
Tapered design for reduced chip clogging, less friction and less jamming even in tough applications - results in less breakages.
Feed screw with coarse thread increases selffeeding in all types of wood - soft & hard, wet & treated.
Polished and powder coated flute design for increased chip ejection, reduced clogging and higher selffeeding capability.

Dual cutting edges

Tapered design

HSS Cable bits - DIN 7490

Manufactured from HSS steel for increased lifetime. Suitable for drilling through holes in wood, plasterboard and metal channel.
Manufactured according to DIN 7490 and conforming to the German Employer's Liability Insurance Association in terms of safety requirements for the building trade. The body of the drill bit is attached to the cylindrical shank by means of a thread, therefore eliminating the risk of breakage and guaranteeing absolute concentricity. The small twist angle and enlarged flutes ensure rapid and clog-free chip removal.
Made in Germany.
