

HOLE DOZER™

THERMOSET COATING
2X FASTER*

*Compared to Milwaukee® ice hardened hole saws

PLUG JACK™

All-access slot design for fast plug removal.

DRILLING

HOLE SAWS AND ACCESSORIES

FEATURES

- **RIPGUARD™**: built with more steel behind the cutting edge for added strength. Milwaukee® offers a limited lifetime warranty against tooth breakage.
- **PLUGJACK™**: multiple leverage points to work cut material out of the hole saw for faster plug removal. This in turn minimises downtime between cuts for the user.
- **Thermoset coating**: provides 2x longer life as compared to previous generation Milwaukee® hole saws. Hole Dozer™ is coated with a low friction, thermoset paint that provides faster cutting speed in wood and more holes cut per battery charge.
- **Perfect solution for cutting all types of material**: steel, stainless steel and acid-resistant steel, non-ferrous metals, cast iron, aluminium, wood, MDF, gypsum plasterboard, sandwich materials, PVC.
