

M12™ FOUR BAY SEQUENTIAL CHARGER

M12C4

Less Swapping, More Charging. The M12 Four Bay Sequential Charger reduces the amount of time spent changing out batteries, increasing productivity on the jobsite. Its slim design makes it the perfect solution for a bench top, as well as storage and transportation of packs on and off the jobsite. Featuring REDLINK Intelligence, it communicates directly with the battery to monitor cell voltage, temperature, and charge status to optimise the performance and extend the life of the pack. The charger offers a compact design, integrated hang holes for vertical mounting, and a skip button to select a desired battery.

FEATURES

- ✓ Charges up to 4 batteries sequentially
- ✓ Bypass mode to select the battery bay that gets charged first
- ✓ Integrated hang holes for vertical mounting
