

165MM (6 1/2") FRAMING 24T CIRCULAR SAW BLADE

48408620

MILWAUKEE's wood cutting, framing blades maximise life and cutting efficiencies to improve your productivity. An anti-friction coating keeps the blade cool while cutting and resists corrosion & gumming. Laser cutting technology creates the blade from 100% sheet steel to ensure a stable blade that increases cutting accuracy. Laser cut vibration slots minimise wobble and warping during use. A thin kerf design delivers faster cuts as well as more cuts per charge when using a cordless tool.

FEATURES

- ✓ Anti-Friction Coating for cooler cuts whilst resisting drag, corrosion and gumming.
- ✓ Cobalt Infused Tungsten Carbide extends the cutting life and maintains the tip sharpness.
- ✓ Laser Cut Vibration Slots minimise wobble and warping.
- ✓ Universal Arbor System includes reduction rings to fit most circular saws.
- ✓ Optimised for corded and cordless performance.

SPECIFICATIONS

ARBOR SIZE	20mm
KERF THICKNESS	1.6mm
REDUCTION RING	5/8" & 16mm
NUMBER OF TEETH	24
HOOK ANGLE	18°
DIAMETER	165mm (6-1/2")
