

# 200A AC OPEN JAW FORK METER

## CL360

UP TO  
**3/0**  
CABLE\*

Cable diameters up to 0.58" (14.7 mm)

**True RMS**  
Measurement  
Technology

**600V** ~  
**1000V** ≡  
**200A** ~  
**60M** Ω

CAT III  
600V

CAT II  
1000V

Test lead holders behind fork for natural two-handed operation

Measurement	CL360
AC Voltage	600V
DC Voltage	1000V
AC Current	200A
Resistance	60MΩ
True RMS	●
Audible Continuity	●
Backlight	●
Non-Contact Testing	●
Auto-Ranging	●
Data Hold	●
LCD Display Count	6000
Durability	
Ingress Protection	IP40
Drop Protection	9.8 ft. (3 m)
Safety Rating — Jaw & Housing	CAT IV 600V CAT III 1000V
Safety Rating — Electrical & Protection Circuit	CAT III 600V CAT II 1000V

## 200A AC OPEN JAW FORK METER

The CL360 is an automatically ranging true root mean squared (TRMS) digital, open jaw fork meter that measures AC current via the fork, AC/DC voltage, continuity, and resistance via test leads. It can also detect the presence of voltage using its integrated non-contact voltage (NCV) tester. The wide jaw allows for current measurements in wires and cables up to 3/0.

- Includes:**
- Owner's Manual
  - Carrying Case
  - Straight Input Test Leads
  - 2 x AAA Batteries

Cat. No.	UPC# 0-92644+	Description	Height	Weight (with Batteries)
CL360	69114-0	200A AC Open Jaw Fork Meter	8.39" (213 mm)	7.3 oz. (208 g)

\*Cable diameters up to 0.58" (14.7 mm)
