

SAT1

Single Tuner Satellite Receiver

DISH-TV®

Description

The SAT1 is a Freeview Approved Satellite Receiver, for use with a Satellite Dish. Watch great local, and international content across 20+ Channels nationwide, with Freeview. So that no matter where you are, you can enjoy quality TV and Radio.

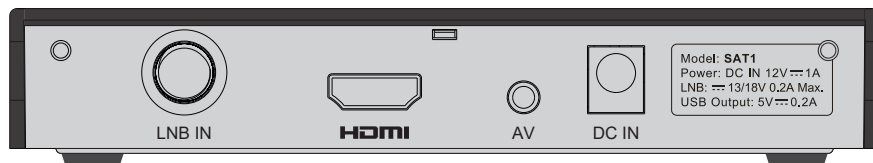

Simple Setup

It can't get any easier than this! Simply connect the SAT1 to your TV, and your Satellite Dish. The First Time Installation will auto-tune in all available Freeview Channels, so you are ready to go straight away.

Updates via USB Port

Due to the continual improvement of our products, Software Updates may be released to improve functionality of the SAT1, and accomodate broadcasting changes.
