

# KLEIN TOOLS®

## NEW ZEALAND

# 600A AC/DC TRMS PRO CLAMP METER W/TEMP

CL810

A-CL810

## FEATURES

- > Clamp meter with True RMS provides accurate and reliable measurements across various applications
- > Measures AC/DC voltage, AC/DC current 10mA-600A, resistance, DC micro amps, temperature, diode test, continuity, capacitance, frequency/duty cycle, and inrush
- > Transflective reverse-contrast display provides excellent visibility in both sunlight and dark environments
- > Illuminated dial ensures clear visibility and easy reading, even in low-light environments
- > Features a low impedance (LoZ) mode to identify and eliminate ghost voltages
- > Integrated worklight illuminates the work area for improved visibility in dark or confined spaces
- > Non-contact voltage detection is integrated into the clamp jaw, with audible and visual indicators

## SPECIFICATIONS

<b>Part No.</b>	A-CL810
<b>Current:</b>	600 A AC/DC
<b>Voltage:</b>	1000V AC/DC
<b>Capacitance:</b>	6000 uF
<b>Resistance:</b>	60MOhms

**Features:** Inrush Current 600A, DC Micro Amps, Temperature -40 to +1000°C, Worklight, Audible Continuity, Low Impedance, Non-Contact Voltage Testing, Diode Test, Frequency/Duty Cycle, Min/Max Value, Rel/Zero, Data Hold Capability
